3. Need for the Arrangement and Rationale of the Scheme

- a. CMIL is renowned in the Indian technology media landscape with a legacy spanning over four decades. With strong national brands including Dataquest, PCQuest, Voice&Data, etc., the media business of CMIL has successfully navigated to digital content for its communities and customers by expanding its offerings of media and content services to include media mesh, online platforms and phygital events.
- b. CMRSL is engaged in ad tech and data analytics business. The Company has four revenue streams i.e., Digital Marketing, Programmatic Media Buying, Publisher Monetization, and Data Analytics. These together form the pillars of the digital marketing landscape. This drives

higher conversions and sales for advertisers and enables publishers to earn more. CMRSL's algorithms leverage large sets of data, process it via AI engines to provide the right results, therefore simplifying digital marketing. CMGalaxy, Auxo Ads and CyberAds are CMRSL's propriety products for different stakeholders in the ecosystem.

- c. The merger will strategically position the merged entity as a single entity for marketing solutions for customers. CMIL has historically built strong customer relationships, products and brands. A merged entity will enable the businesses to focus on higher value creation for customers and therefore higher profitability. The merged companies' key business activities will comprise Marketing & Technology Solutions, Print & Digital Publications, Industry Research & Consulting and Event Management.
- d. With Deep Tech playing a pivotal role in Viksit Bharat 2047, CyberMedia (merged entity) aims to establish market leading products across the above-mentioned categories. This will uniquely position the combined entity as a one-stop-shop for corporates and SMEs to choose for their transformation.
- e. The merger will cause silos to be broken down resulting in cross-sell, up-sell of various products & services. This synergy will result in cross leveraging clients to fuel additional growth opportunities.
- f. The merger will also strengthen decision making and optimize management bandwidth. The merged entity will therefore bring about a synergy at the strategic, decision-making and execution level.
- g. The merged entity will lead to an increase in market capitalization. In addition to the aggregation of existing market caps of existing entities, the synergies will lead to enhancement of size and profitability. This would lay the roadmap for long-term growth both organic as well as inorganic.
- h. The shares of CMRSL are listed on SME-Emerge Platform of NSE. The shares of CMIL are listed on the main board of NSE and BSE. CMIL shares have a far higher trading volume in number of transactions, quantity and value as compared to CMRSL shares. Upon merger, the shareholders of CMRSL will have better liquidity by trading in CMIL shares at the main board of NSE and BSE with no restriction on lot size. Therefore, CMRSL investors will find better liquidity and value for their holdings.
- i. Merger will result in better cost management. Sales operations will become far more effective with a reduction in duplicate marketing and selling costs. Duplication at senior management level would be eliminated.
- j. There will be reduction in administrative expenses as cost duplication over HR, finance, admin, accounts, legal functions are rationalized.
- k. Further cost savings will be achieved because of reduced compliance costs. This would include statutory fee incurred on compliances., viz., General Meetings, NSE, NSDL, CDSL, RoC, RTA. Work related to statutory audit, internal audit, secretarial audit, income tax audit, GST, PF, ESI, Professional Tax, etc. will halve. So will the professional cost associated with the consultants engaged for these activities.

Therefore, the proposed amalgamation will create and provide more customers, better customer relationship, simplification of business processes, operational synergies, economies of scale, optimum utilization of resources, which will create stronger base for future growth.

- m. The merger will improve cash flow which shall result in efficient utilization of capital at the combined entity level. The combined balance sheet will have better ROCE, debt equity ratio, current ratios, etc.
- n. The merger will help in achieving consolidation, greater integration and flexibility that will maximize overall shareholders' value and improve the competitive position and negotiating power of the combined entity.
